Did you know that 1 in 5 pregnancies in Singapore are aborted? More than 660,000 abortions have been recorded since 1970. With every abortion, a precious life is lost. However, the survivors of abortion – mothers, fathers, grandparents, friends, siblings – live on, often in guilt, shame and pain.

LOVE • LIFE is a conference to awaken compassion and action for those hurt by abortion. We will address the hard questions, and seek to find truth and mercy in God.

Come hear the honest stories, the painful truths and embrace the hope of how we can be part of a movement of Love and Life.
